

Tillaga til þingsályktunar

um fullgildingu samnings um allsherjarbann við tilraunum með kjarnavopn.

(Lögð fyrir Alþingi á 125. löggjafarþingi 1999–2000.)

Alþingi ályktar að heimila ríkisstjórninni að fullgilda fyrir Íslands hönd samning um allsherjarbann við tilraunum með kjarnavopn sem samþykktur var í New York 10. september 1996.

Athugasemdir við þingsályktunartillögu þessa.

Með þingsályktunartillögu þessari er leitað heimildar Alþingis til fullgildingar á samningi um allsherjarbann við tilraunum með kjarnavopn sem samþykktur var í New York 10. september 1996. Samningurinn er prentaður sem fylgiskjal með tillöggunni.

Samningur pessi er tvímælalaust mikilvægasti alþjóðasamningur undanfarinna ára er snýr að kjarnavopnum. Samningurinn kveður á um allsherjarbann við tilraunum með kjarna-sprengingar. Áður höfðu samningar náðst um bann við tilraunum í andrúmslofti, í geimnum og neðansjávar (1963), sem og um takmörkun sprenginga við 150 kilótonna styrkleika (1974).

Afvopnunarráðstefnan í Genf hóf samningaviðræður um allsherjarbann við tilraunum með kjarnavopn 26. janúar 1994. Ráðstefnan getur einungis tekið ákvárdanir með almennu samþykkji þeirra ríkja sem taka þátt í henni og þegar upp var staðið var eitt ríkjanna, Indland, ekki reiðubúið til að samþykka þau samningsdrög sem samstaða var um að öðru leyti. Af þessum sökum var samningurinn lagður fyrir aukaallsherjarþing Sameinuðu þjóðanna sem kallað var saman sérstaklega í þessum tilgangi og samþykkti það samninginn með miklum meiri hluta 10. september 1996. Samningurinn var lagður fram til undirritunar 24. september 1996 og var hann undirritaður af Íslands hálfu sama dag.

Samningurinn um allsherjarbann við tilraunum með kjarnavopn hafði hinn 24. mars 2000 verið undirritaður af 155 ríkjum og fullgiltur af hálfu 55 ríkja. Samningurinn öðlast ekki gildi fyrr en þau 44 ríki, sem tilgreind eru í 2. viðauka við samninginn, hafa fullgilt hann. Af þessum ríkjum hafa 28 ríki fullgilt samninginn en 41 undirritað hann. Þrjú ríkjanna, Indland, Pakistan og Norður-Kórea, hafa ekki undirritað samninginn. Kjarnorkuveldin Bandaríkin, Rússland, Kína, Frakkland og Bretland hafa öll undirritað samninginn. Tvö síðastnefndu ríkin hafa enn fremur fullgilt samninginn.

Samningurinn gerir ráð fyrir alþjóðlegu eftirlitskerfi sem samanstendur af alls 321 stöð víðs vegar um heim í samtals 89 löndum. Kerfið er tvískipt, aðalkerfi og varakerfi. Tvær þessara stöðva verða staðsettar á Íslandi til mælinga á geislavirkni og jarðhræringum. Stöð til mælinga á geislavirkni tilheyrir aðalkerfinu og verður staðsett á Rjúpnahæð. Uppsetning stöðvarinnar er áætluð síðar á þessu ári. Verður hún í umsjón Geislavarna ríkisins sem einnig munu sjá um að miðla upplýsingum frá stöðinni til alþjóðlegrar gagnamiðstöðvar sem safnar saman upplýsingum frá stöðvum víðs vegar um heim. Stöð til jarðskjálftamælinga, sem

Veðurstofa Íslands hefur umsjón með, er staðsett í nágrenni við Borgarnes og er henni ætlað að þjóna varakerfinu.

Sérstök stofnun með aðsetur í Vínarborg hefur umsjón með framkvæmd samningsins og rekstri alþjóðaeftirlitskerfisins og gagnamiðstöðvarinnar.

Kjarnorkuveldin hafa frá árinu 1945 framkvæmt alls 2.046 sprengingar með kjarnavopn. Engar tilraunasprengingar fóru fram eftir að samningurinn var lagður fram til undirskriftar í september 1996 þar til í maí 1998 að Indland og Pakistan rufu þá samstöðu sem ríkti um allsherjarbann.

Allsherjarbann við kjarnasprengingum hefur mikla þýðingu til að stemma stigu við vígbúnaðarkappblaupi á svíði kjarnavopna. Samningurinn setur ríkjum skorður í þróun og smíði kjarnavopna, einkum þeim ríkjum sem ekki eiga slík vopn fyrir en hafa í hyggju að koma þeim upp. Samningurinn hamrar einnig gegn frekari þróun nýrra vopna þeirra ríkja sem þegar hafa á að skipa kjarnavopnum. Samningurinn hefur þannig mjög mikið gildi í viðleitni til að stemma stigu við útbreiðslu kjarnavopna og hefta frekari þróun þeirra. Hann er einnig álitinn skipta miklu hvað varðar fækken kjarnavopna.

Kjarnorkuveldin Bandaríkin, Rússland og Kína hafa enn ekki fullgilt samninginn um allsherjarbann við tilraunum með kjarnavopn. Bandaríkin voru meðal þeirra ríkja sem höfðu forustu um gerð samningsins og hafa alla tíð verið í fararbrotti í því að stemma stigu við útbreiðslu kjarnavopna. Öldungadeild Bandaríkjajatings felldi í atkvæðagreiðslu (51–48) ályktun um fullgildingu samningnsins í október 1999. Bandaríkjaforseti lýsti því yfir að hann mundi halda áfram að berjast fyrir allsherjarbanni við tilraunum með kjarnavopn og að Bandaríkin mundu halda áfram þeirri stefnu sem mörkuð var árið 1992 að gera ekki tilraunir með kjarnavopn.

Rússland og Kína hafa lýst því yfir að þau muni fullgilda samninginn en ekki liggur fyrir hvenær það verður.

Það leiðir af framangreindu að það er allsendis óvist hvenær samningurinn mun öðlast gildi. Vestræn ríki hafa almennt lagt áherslu á að fullgilda samninginn hið fyrsta og framfylgja ákvæðum hans án tillits til hvenær hann öðlast formlega gildi. Að baki búa pólitískar ástæður og viðleitni til að skapa aðstæður sem flýtt geta fyrir gildistöku samningsins.

Samningurinn samanstendur af inngangsorðum, 17 greinum og tveimur viðaukum, auk bókunar með viðaukum.

Í inngangsorðum er farið almennum orðum um markmið samningsins og þær skyldur sem aðildarríki takast á hendur samkvæmt honum. Í 1.–6. gr. eru sett fram meginnefnisatriði samningsins.

1. gr. felur í sér skuldbindingu aðildarríkja til að framkvæma engar tilraunasprengingar kjarnavopna eða að taka á nokkurn hátt þátt í slíkum tilraunum og banna allar slíkar sprengingar í lögsögu eða á yfrráðasvæði þeirra.

2. gr. fjallar um stofnun þá í Vínarborg sem fer með umsjón og framkvæmd samningsins, uppybyggingu hennar, starfsreglur og hlutverk.

3. gr. tilgreinir þær ráðstafanir sem hvert aðildarríkjanna þarf að standa að heima fyrir til að uppfylla skuldbindingar samkvæmt samningnum.

4. gr. felur í sér ítarleg ákvæði um eftirlit og alþjóðlega eftirlitskerfið, þær skuldbindingar sem aðildarríkin taka á sig varðandi eftirlit á staðnum, framkvæmd eftirlits og önnur atriði sem lúta að eftirliti með því að samningnum sé framfylgt.

5. gr. fjallar um aðgerðir til að tryggja að staðið sé við skuldbindingar samkvæmt samningnum, þar á meðal viðurlög.

6. gr. fjallar um lausn deilumála sem upp kunna að koma í tengslum við framkvæmd samningsins.

7. gr. segir til um hvernig farið skuli með tillögur um breytingar á samningnum.

8. gr. fjallar um endurskoðunarráðstefnur samningsins sem haldnar eru á tíu ára fresti.

9.–17. gr. fjalla m.a. um gildistíma og úrsögn, gildi bókunar og viðauka, undirritun, fullgildingu, gildistöku, fyrirvara og vörluaðila.

Tveir viðaukar eru við samninginn. Sá fyrri er listi yfir aðildarríki samningsins sem tekið geta sæti í framkvæmdaráði samkvæmt ákveðinni landfræðilegri skiptingu. Framkvæmdaráðið er hluti stofnunarinnar í Vínarborg og í því eiga sæti fulltrúar 51 aðildarríkis. Seinni viðaukinn er listi yfir þau 44 ríki sem þurfa að fullgilda samninginn til þess að hann geti öðlast gildi.

Í bókuninni með samningnum er ítarleg útfærsla á 4. gr. samningsins um eftilit. Bókunin skiptist í þrjá hluta. Sá fyrsti tekur til alþjóðlega eftirlitskerfisins og gagnamiðstöðvarinnar. Annar hlutinn fjallar um starfsreglur og eftirlit á staðnum og sá þriðji um traustvekjandi aðgerðir. Tveir viðaukar eru við bókunina. Sá fyrri hefur að geyma lista yfir stöðvar alþjóðlega eftirlitskerfisins og sá seinni tilgreinir tæknilega mælikvarða sem gagnamiðstöðin hefur til hliðsjónar í störfum sínum.

Dómsmálaráðuneytið hefur til athugunar hvort þörf sé á setningu nýrra laga eða breytingu á núgildandi lögum til þess að Ísland geti staðið við þær skuldbindingar sem í samningnum felast.

Þau skilyrði, sem gilda um veitingu viðbótarupplýsinga frá slíkum stöðvum og um óskir alþjóðlegu gagnamiðstöðvarinnar um frekari eða hraðari upplýsingar eða skýringar, skulu skýrð nákvæmlega í starfsleiðbeiningum fyrir það eftirlitskerfi sem í hlut á.

Framkvæmdastjórinn skal leggja til viðeigandi upplýsingar úr vörlu tækniskrifstofunnar sem máli skipta varðandi slíkar áhyggjur. Framkvæmdastjórinn skal upplýsa framkvæmdaráðið um beiðnina og þær upplýsingar sem veittar eru í svari við henni, sé þess óskað af því aðildarríki sem setur fram beiðnina.

32. Aðildarríki skal hafa rétt til þess að fara fram á það við framkvæmdaráðið að það fái skýringar frá öðru aðildarríki um hvert það mál sem mögulega getur valdið áhyggjum um að ekki sé staðið við grundvallarskuldbindingar samkvæmt þessum samningi. Í því tilviki skal eftirfarandi eiga við:

- a. framkvæmdaráðið skal koma beiðninni um skýringar til hlutaðeigandi aðildarríkis fyrir milligöngu framkvæmdastjórans eigi síðar en 24 klukkustundum eftir móttöku hennar;
- b. aðildarríkið sem beiðninni er beint til skal gefa framkvæmdaráðinu skýringu svo fljótt sem auðið er, en hvað sem öðru líður eigi síðar en 48 klukkustundum eftir móttöku beiðninnar;

- d. ef aðildarríkið sem leggur fram beiðnina telur skýringuna ófullnægjandi skal það hafa rétt til að biðja framkvæmdaráðið um frekari skýringu frá aðildarríkinu sem beiðninni er beint til.

Framkvæmdaráðið skal tafarlaust upplýsa öll önnur aðildarríki um sérhverja beiðni um skýringu samkvæmt þessari málsgrein sem og öll svör sem aðildarríkið sem beðið hefur verið skýringa leggur fram.

33. Ef aðildarríkið, sem beðið hefur skýringa, telur skýringuna sem gefin er samkvæmt d-lið 32. mgr. ófullnægjandi skal það hafa rétt til að krefjast fundar framkvæmdaráðsins þar sem aðildarríki sem hlut eiga að máli og ekki eru meðlimir í framkvæmdaráðinu eiga rétt til þáttöku. Á slíkum fundi skal framkvæmdaráðið fjalla um málið og getur mælt með hvaða ráðstöfunum sem er í samræmi við 5. gr.

Ákvörðunin um að samþykkja boranir skal tekin af meiri hluta allra meðlima framkvæmdaráðsins.

49. Eftirlitshópurinn getur farið þess á leit á við framkvæmdaráðið, fyrir milligöngu framkvæmdastjórans, að það framlengi eftirlitstímann í allt að 70 daga fram yfir það 60 daga tímabil sem tilgreint er í 4. mgr. II. hluta bókunarinnar, ef eftirlitshópurinn álítur slíka framlengingu nauðsynlega til að gera honum kleift að framfylgja erindisbréfi sínu. 51. Aðildarríkinu sem leggur fram beiðni um eftirlit og aðildarríkinu sem óskað er að sæti eftirliti er heimilt að taka þátt í umræðu í framkvæmdaráðinu varðandi beiðni um staðbundið eftirlit án þess þó að greiða atkvæði. Sömu ríki mega einnig taka þátt í allri frekari umræðu í framkvæmdaráðinu um eftirlitið án þess að greiða atkvæði.

52. Framkvæmdastjórinn skal, innan 24 klukkustunda, gera öllum aðildarríkjum grein fyrir hvers konar ákvörðunum framkvæmdaráðsins sem og skýrslum, tillögum, beiðnum og tilmælum sem því berast í samræmi við 46.–50. mgr.

Framhaldsaðgerðir í kjölfar samþykktar framkvæmdaráðsins á staðbundnu eftirliti.

53. Staðbundið eftirlit, sem samþykkt er af framkvæmdaráðinu, skal framkvæmt án tafar af eftirlitshópi sem tilnefndur er af framkvæmdastjóranum og í samræmi við ákvæði þessa

samnings og bókunarinnar. Eftirlitshópurinn skal vera kominn á þann stað sem farið er inn í landið eigi síðar en sex dögum eftir að framkvæmdaráðið tekur við beiðni um staðbundið eftirlit frá aðildarríkinu sem leggur hana fram.

54. Framkvæmdastjórinn skal útbúa erindisbréf fyrir framkvæmd staðbundins eftirlits. Erindisbréfið skal innihalda upplýsingar þær sem kveðið er á um í 42. mgr. II. hluta bókunarinnar.

55. Framkvæmdastjórinn skal tilkynna aðildarríki því sem sæta á eftirliti um eftirlitið eigi síðar en 24 klukkustundum fyrir áætlaða komu eftirlitshópsins á þann stað sem farið er inn í landið í samræmi við 43. mgr. II. hluta bókunarinnar.

Framkvæmd staðbundins eftirlits.

56. Sérhvert aðildarríki skal leyfa stofnuninni að framkvæma staðbundið eftirlit á sínu yfirráðasvæði eða á stöðum sem eru undir lögsögu eða stjórn þess í samræmi við ákvæði þessa samnings og bókunarinnar. Hins vegar er engu aðildarríki skylt að samþykkja að fram fari margar staðbundnar eftirlitsaðgerðir á sama tíma á yfirráðasvæði sínu eða á stöðum sem eru undir lögsögu þess eða stjórn.

57. Í samræmi við ákvæði þessa samnings og bókunarinnar skal aðildarríkið sem eftirlit er haft með hafa:

- a. rétt og skyldu til að gera hvaðeina sem tilhlýðilegt er til að sýna fram á að það standi við samninginn og, með þetta fyrir augum, að leyfa eftirlitshópnum að framfylgja erindisbréfi sínu;
- b. rétt til að gera þær ráðstafanir sem það telur nauðsynlegar til að tryggja þjóðaröryggis-hagsmuni og koma í veg fyrir að trúnaðarmál séu opinberuð sem ekki eru tengd markmiðum eftirlitsins;
- c. þá skyldu að leyfa aðgang innan eftirlitssvæðisins einungis með það fyrir augum að komast að staðreyndum sem skipta máli fyrir markmið eftirlitsins, að teknu tilliti til biliðar og hvers konar stjórnskipulegra skuldbindinga sem það kann að hafa með hliðsjón af eignarrétti eða leit eða kyrrsetningu;
- d. skyldu til að vísa ekki til þessarar málsgreinar eða 88. mgr. II. hluta bókunarinnar til að leyna broti á skuldbindingum sínum samkvæmt 1. gr.; og
- e. skyldu til að skerða ekki getu eftirlitshópsins til að hreyfa sig innan eftirlitssvæðisins og til að framkvæma eftirlitsaðgerðir í samræmi við þennan samning og bókunina.

Aðgangur, í samhengi við staðbundið eftirlit, merkir bæði eiginlegur aðgangur eftirlitshópsins og eftirlitsbúnaðar að eftirlitssvæðinu svo og framkvæmd eftirlitsaðgerða innan eftirlits-svæðisins.

58. Staðbundið eftirlit skal framkvæmt þannig að það valdi sem minnstri truflun, í samræmi við skilvirkar og tímanlegar lyktir eftirlitsins og í samræmi við málsméðferðarreglur sem settar eru fram í bókuninni. Hvar sem mögulegt er skal eftirlitshópurinn byrja á þann hátt sem veldur minnstri truflun og síðan einungis hefja ágengari aðgerðir að því marki sem hann telur nauðsynlegt til að safna saman nægjanlegum upplýsingum til að skýra áhyggjur um hugsanlegar vanefndir á samningnum. Eftirlitsmenn skulu einungis leita upplýsinga og gagna sem nauðsynleg eru fyrir eftirlitið og leitast við að valda sem minnstum truflunum á daglegri starfsemi í aðildarríki því sem haft er eftirlit með.

59. Aðildarríki það sem eftirlit er haft með skal aðstoða eftirlitshópinn meðan á staðbundnu eftirliti stendur og greiða fyrir verki hans.

60. Ef aðildarríki það, sem eftirlit er haft með og gerir ráðstafanir í samræmi við 86.–96. mgr. II. hluta bókunarinnar, hindrar aðgang innan eftirlitssvæðisins skal það gera hvaðeina sem tilhlýðilegt getur talist, í samráði við eftirlitshópinn, til að sýna með öðrum hætti að það stendur við samninginn.

Ahorfandi.

61. Hvað varðar áhorfanda skal eftirfarandi eiga við:

- aðildarríki það sem leggur fram beiðni má, svo framarlega sem samþykki fæst frá aðildarríki því sem eftirlit er haft með, senda fulltrúa, sem skal annaðhvort vera ríkisborgari aðildarríkis þess sem leggur fram beiðnina eða þriðja aðildarríkis, til að fylgjast með framkvæmd staðbundna eftirlitsins;
- aðildarríkið sem eftirlit er haft með skal tilkynna samþykki sitt eða synjun að því er varðar áhorfandann sem tillaga er gerð um til framkvæmdastjórans innan 12 klukkustunda eftir að framkvæmdaráðið samþykkir hið staðbundna eftirlit;
- ef samþykki er veitt skal aðildarríkið sem eftirlit er haft með veita áhorfandanum aðgang í samræmi við bókunina;
- aðildarríkið sem eftirlit er haft með skal almennt samþykkja þann áhorfanda sem tillaga er gerð um, en ef að aðildarríkið sem eftirlit er haft með ber fram synjun, skal sú staðreynd skráð í eftirlitsskýrslu.

Eigi skulu vera fleiri en þrír áhorfendur frá hópi þeirra aðildarríkja sem leggja fram beiðni.

Skyrslur um staðbundið eftirlit.

62. Eftirlitsskýrslur skulu innihalda:

- lýsingu á aðgerðum eftirlitshópsins;
- niðurstöður eftirlitshópsins sem hafa þýðingu fyrir markmið eftirlitsins;
- greinargerð varðandi veitta samvinnu meðan á staðbundnu eftirliti stóð;
- lýsingu á því í hvaða mæli aðgangur var veittur, þ.á m. öðrum möguleikum sem hópnum voru veittir, meðan á staðbundnu eftirliti stóð; og
- hvers konar önnur atriði sem þýðingu hafa varðandi markmið eftirlitsins.

Sérstakar athugasemdir einstakra eftirlitsmanna má setja sem viðhengi við skýrsluna.

63. Framkvæmdastjórinn skal veita aðildarríki því sem eftirlit er haft með aðgang að drögum að eftirlitsskýrslum. Aðildarríki það sem eftirlit er haft með skal eiga rétt á að leggja fyrir framkvæmdastjórann innan 48 klukkustunda athugasemdir sínar og skýringar, og að bera kennsl á hvers kyns upplýsingar og gögn sem að álti þess eru ekki tengd markmiðum eftirlitsins og ættu ekki að fara til dreifingar utan tækniskrifstofunnar. Framkvæmdastjórinn skal íhuga tillögur sem aðildarríkið sem eftirlit er haft með leggur fram varðandi breytingar við drög að eftirlitsskýrslu og skal þar sem unnt er fella þær inn í skýrsluna. Framkvæmdastjórinn skal einnig setja athugasemdir og skýringar sem gefnar eru af aðildarríki því sem eftirlit er haft með sem viðauka við eftirlitsskýrsluna.

64. Framkvæmdastjórinn skal tafarlaust senda eftirlitsskýrslu til aðildarríkisins sem leggur fram beiðnina, aðildarríkisins sem eftirlit er haft með, framkvæmdaráðsins og allra annarra aðildarríkja. Framkvæmdastjórinn skal einnig tafarlaust senda til framkvæmdaráðsins og allra annarra aðildarríkja hvers konar niðurstöður úr greiningu á sýnishornum frá tilnefndum rannsóknarstofum í samræmi við 104. mgr. II. hluta bókunarinnar, gögn sem máli skipta frá alþjóðlega eftirlitskerfinu, álit aðildarríkisins sem leggur fram beiðnina og aðildarríkisins

sem eftirlit er haft með, ásamt hvers konar öðrum upplýsingum sem framkvæmdastjórinн telur skipta máli. Ef um er að ræða skýrslu um framgang eftirlits sem vísað er til í 47. mgr. skal framkvæmdastjórinн senda skýrsluna til framkvæmdaráðsins innan þess tíma sem kveðið er á um í þeirri málsgrein.

65. Framkvæmdaráðið skal, í samræmi við valdheimildir þess og starfssvið, ígrunda eftirlitsskýrsluna og hvers konar efni sem lagt er fram í samræmi við 64. mgr. og skal fjalla um hvers kyns áhyggjur sem varða:

- hvort um vanefndir á samningnum sé að ræða; og
- hvort rétturinn til að biðja um staðbundið eftirlit hafi verið misnotaður.

66. Ef framkvæmdaráðið kemst að þeirri niðurstöðu, í samræmi við valdheimildir þess og starfssvið, að nauðsyn sé á frekari aðgerðum með tilliti til 65. mgr. skal það gera viðeigandi ráðstafanir í samræmi við 5. gr.

Léttvægar eða ranglátar beiðnir um staðbundið eftirlit.

67. Ef framkvæmdaráðið samþykkir ekki staðbundið eftirlit á þeim grundvelli að beiðni um staðbundið eftirlit sé léttvæg eða ranglát eða ef eftirlit er stöðvað af sömu ástæðum skal framkvæmdaráðið ígrunda og ákveða hvort viðeigandi ráðstafanir skuli framkvæmdar til að ráða bót á ástandinu, þ.á m. eftirfarandi:

- að krefja aðildarríkið sem bað um eftirlit um greiðslu kostnaðar við undirbúning af hálfu tækniskrifstofunnar;
- að fella niður rétt aðildarríkisins sem lagði fram beiðnina til að biðja um staðbundið eftirlit um ákveðinn tíma, svo sem ákvarðað er af framkvæmdaráðinu; og
- að fella niður rétt aðildarríkisins sem lagði fram beiðnina til að sitja í framkvæmdaráðinu um ákveðinn tíma.

E. Traustvekjandi aðgerðir.

68. Í þeim tilgangi að:

- stuðla að tímanlegri lausn á áhyggjum um vanefndir á samningnum sem stafað gætu af hugsanlegri mistúlkun á eftirlitsgögnum sem varða sprengingar með efnavopn; og
- aðstoða við stillingu þeirra stöðva sem tilheyra einstökum hlutum alþjóðlega eftirlitskerfisins,

tekst hvert aðildarríki á hendur að vinna með stofnuninni og öðrum aðildarríkjum við að framkvæma aðgerðir sem máli skipta, eins og lýst er í III. hluta bókunarinnar.

5. gr.

3. Í tilvikum þar sem vanefndir grundvallarskuldbindinga þessa samnings geta skaðað markmið og tilgang samningsins getur þingið mælt með því við aðildarríki að grípið verði til sameiginlegra aðgerða sem samræmast þjóðarétti.

4. Þingið, eða, ef málið er brýnt, framkvæmdaráðið, getur lagt málið fyrir Sameinuðu þjóðirnar, þar á meðal upplýsingar og niðurstöður sem máli skipta.

6. gr.

2. Þegar upp kemur deila milli tveggja eða fleiri aðildarríkja, eða á milli eins eða fleiri aðildarríkja og stofnunarinnar, sem varðar beitingu eða túlkun þessa samnings, skulu viðkomandi aðilar hafa samráð sín á milli í þeim tilgangi að leysa deiluna skjótt með samninga-viðræðum eða öðrum friðsamlegum leiðum að þeirra vali, þar á meðal að leita til þar til viðeigandi stofnana þessa samnings og, með gagnkvæmu samþykki, að vísa málinu til Alþjóðadómstólsins í samræmi við samþykktir dómstólsins. 4. Þingið skal fjalla um álitamál sem tengjast deilum sem aðildarríki taka upp eða sem framkvæmdaráðið vekur athygli þess á. Þingið skal eftir því sem það telur nauðsyn á, stofna eða fela undirstofnunum verkefni sem varða lausn þessara deilna í samræmi við j-lið 26. mgr.

2. gr.

Ef meiri hluti aðildarríkjanna tilkynnir framkvæmdastjóranum, eigi síðar en 30 dögum eftir að breytingartillöggunni var dreift, að þau styðji að tillagan verði tekin til frekari athugunar skal framkvæmdastjórinn boða til breytingarþings sem öllum aðildarríkjunum skal boðið til.

4. Breytingarþing skal haldið þegar að loknum reglulegum fundi þingsins nema öll aðildarríkin sem styðja að boðað sé til breytingarþings fari fram á að það verði haldið fyrr. Aldrei skal þó breytingarþing fyrr en 60 dögum eftir að breytingartillögunni var dreift.

7. Í þeim tilgangi að tryggja raunhæfni og virkni þessa samnings skulu I. og III. hluti bókunarinnar og 1. og 2. viðauki við bókunina vera háðir breytingum samkvæmt 8. mgr., ef breytingarnar sem lagðar eru til eru einungis stjórnsýslu- eða tæknilegs eðlis. 1. Tíu árum eftir að samningur þessi öðlast gildi skal, nema meiri hluti aðildarríkja ákveði annað, halda þing aðildarríkjanna til að endurskoða framkvæmd og virkni þessa samnings, með það fyrir augum að fullvissa sig um að markmið og tilgangur, sem fram koma í inngangsorðum og ákvæðum samningsins, nái fram að ganga. Slík endurskoðun skal taka tillit til allrar nýrrar vísindalegrar og tæknilegrar þróunar sem þýðingu hefur fyrir samning þennan. Ef endurskoðunarþingið ákveður, með almennu samkomulagi, að slíkar kjarnaspengingar megi leyfa skal það tafarlaust hefja störf, með það fyrir augum að leggja til við aðildarríkin viðeigandi breytingu á þessum samningi sem útilokar nokkurn hernaðarlegan ávinnung af slíkum kjarnaspengingum. Sérhverri slíkri breytingu, sem lögð er til, skal eitthvert aðildarríki koma á framfæri við framkvæmdastjórn og skal fjallað um hana samkvæmt ákvæðum 7. gr.

- Hvert aðildarríki skal í krafti fullveldis síns hafa rétt til að segja samningnum upp ef það telur að óvenjulegir atburðir, sem tengjast efni þessa samnings, hafi stofnað grundvallarhagsmunum þess í hættu.

3. Úrsögn skal framkvæmd með því að tilkynna öllum öðrum aðildarríkjum, framkvæmdaráðinu, vörluaðila og öryggisráði Sameinuðu þjóðanna þar um með sex mánaða fyrirvara. Tilkynningu um úrsögn skal fylgja yfirlýsing um þann óvenjulega atburð eða atburði sem aðildarríki telur að stofni grundvallarhagsmunum þess í hættu.

10. gr.

Staða bókunarinnar og viðaukanna.

Viðaukarnir við samning þennan, bókunin og viðaukarnir við bókunina eru óaðskiljanlegir hlutar samningsins. Sérhver tilvísun í samninginn tekur til viðaukanna við samning þennan, bókunarinnar og viðaukanna við bókunina.

13. gr.

Aðild.

Sérhvert ríki, sem ekki skrifar undir þennan samning áður en hann öðlast gildi, getur gerst aðili að honum hvenær sem er eftir það.

14. gr.

Gildistaka.

1. Þessi samningur skal öðlast gildi 180 dögum eftir að fullgildingarskjöl hafa verið afhent af hálfu allra þeirra ríkja sem upp eru talin í 2. viðauka við samning þennan, en þó eigi fyrr en tveimur árum eftir að hann er lagður fram til undirritunar.

2. Ef samningur þessi hefur ekki öðlast gildi þemur árum frá þeim degi sem hann er lagður fram til undirritunar skal vörluaðili kalla saman þing ríkjanna sem þegar hafa afhent fullgildingarskjöl sín, að beiðni meiri hluta þessara ríkja. COMPREHENSIVE NUCLEAR-TEST-BAN TREATY PREAMBLE

The States Parties to this Treaty (hereinafter referred to as “the States Parties”),

Welcoming the international agreements and other positive measures of recent years in the field of nuclear disarmament, including reductions in arsenals of nuclear weapons, as well as in the field of the prevention of nuclear proliferation in all its aspects,

Underlining the importance of the full and prompt implementation of such agreements and measures,

Convinced that the present international situation provides an opportunity to take further effective measures towards nuclear disarmament and against the proliferation of nuclear weapons in all its aspects, and declaring their intention to take such measures,

Stressing therefore the need for continued systematic and progressive efforts to reduce nuclear weapons globally, with the ultimate goal of eliminating those weapons, and of general and complete disarmament under strict and effective international control,

Recognizing that the cessation of all nuclear weapon test explosions and all other nuclear explosions, by constraining the development and qualitative improvement of nuclear weapons and ending the development of advanced new types of nuclear weapons, constitutes an effective measure of nuclear disarmament and non-proliferation in all its aspects,

Further recognizing that an end to all such nuclear explosions will thus constitute a meaningful step in the realization of a systematic process to achieve nuclear disarmament,

Convinced that the most effective way to achieve an end to nuclear testing is through the conclusion of a universal and internationally and effectively verifiable comprehensive nuclear test-ban treaty, which has long been one of the highest priority objectives of the international community in the field of disarmament and non-proliferation,

Noting the aspirations expressed by the Parties to the 1963 Treaty Banning Nuclear Weapon Tests in the Atmosphere, in Outer Space and Under Water to seek to achieve the discontinuance of all test explosions of nuclear weapons for all time,

Noting also the views expressed that this Treaty could contribute to the protection of the environment,

Affirming the purpose of attracting the adherence of all States to this Treaty and its objective to contribute effectively to the prevention of the proliferation of nuclear weapons in all its aspects, to the process of nuclear disarmament and therefore to the enhancement of international peace and security,

Have agreed as follows:

ARTICLE I BASIC OBLIGATIONS

1. Each State Party undertakes not to carry out any nuclear weapon test explosion or any other nuclear explosion, and to prohibit and prevent any such nuclear explosion at any place under its jurisdiction or control.

16. The International Monitoring System shall comprise facilities for seismological monitoring, radionuclide monitoring including certified laboratories, hydroacoustic monitoring, infrasound monitoring, and respective means of communication, and shall be supported by the International Data Centre of the Technical Secretariat.

17. The International Monitoring System shall be placed under the authority of the Technical Secretariat. All monitoring facilities of the International Monitoring System shall be owned and operated by the States hosting or otherwise taking responsibility for them in accordance with the Protocol.

18. Each State Party shall have the right to participate in the international exchange of data and to have access to all data made available to the International Data Centre. Each State Party shall cooperate with the International Data Centre through its National Authority.

Funding the International Monitoring System

19. For facilities incorporated into the International Monitoring System and specified in Tables 1-A, 2-A, 3 and 4 of Annex 1 to the Protocol, and for their functioning, to the extent that such facilities are agreed by the relevant State and the Organization to provide data to the International Data Centre in accordance with the technical requirements of the Protocol and relevant operational manuals, the Organization, as specified in agreements or arrangements pursuant to Part I, paragraph 4 of the Protocol, shall meet the costs of:

- a. Establishing any new facilities and upgrading existing facilities unless the State responsible for such facilities meets these costs itself;
- b. Operating and maintaining International Monitoring System facilities, including facility physical security if appropriate, and application of agreed data authentication procedures;
- c. Transmitting International Monitoring System data (raw or processed) to the International Data Centre by the most direct and cost effective means available, including, if necessary, via appropriate communications nodes, from monitoring stations, laboratories, analytical facilities or from national data centres; or such data (including samples where appropriate) to laboratory and analytical facilities from monitoring stations; and
- d. Analysing samples on behalf of the Organization.

20. For auxiliary network seismic stations specified in Table 1-B of Annex 1 to the Protocol the Organization, as specified in agreements or arrangements pursuant to Part I, paragraph 4 of the Protocol, shall meet the costs only of:

- a. Transmitting data to the International Data Centre;
- b. Authenticating data from such stations;
- c. Upgrading stations to the required technical standard, unless the State responsible for such facilities meets these costs itself;
- d. If necessary, establishing new stations for the purposes of this Treaty where no appropriate facilities currently exist, unless the State responsible for such facilities meets these costs itself; and
- e. Any other costs related to the provision of data required by the Organization as specified in the relevant operational manuals.

21. The Organization shall also meet the cost of provision to each State Party of its requested selection from the standard range of International Data Centre reporting products and services, as specified in Part I, Section F of the Protocol. The cost of preparation and transmission of any additional data or products shall be met by the requesting State Party.

22. The agreements or, if appropriate, arrangements concluded with States Parties or States hosting or otherwise taking responsibility for facilities of the International Monitoring System shall contain provisions for meeting these costs. Such provisions may include modalities whereby a State Party meets any of the costs referred to in paragraphs 19 (a) and

20 (c) and (d) for facilities which it hosts or for which it is responsible, and is compensated by an appropriate reduction in its assessed financial contribution to the Organization. Such a reduction shall not exceed 50 percent of the annual assessed financial contribution of a State Party, but may be spread over successive years. A State Party may share such a reduction with another State Party by agreement or arrangement between themselves and with the concurrence of the Executive Council. The agreements or arrangements referred to in this paragraph shall be approved in accordance with Article II, paragraphs 26 (h) and 38 (i).

Changes to the International Monitoring System

23. Any measures referred to in paragraph 11 affecting the International Monitoring System by means of addition or deletion of a monitoring technology shall, when agreed, be incorporated into this Treaty and the Protocol pursuant to Article VII, paragraphs 1 to 6.

24. The following changes to the International Monitoring System, subject to the agreement of those States directly affected, shall be regarded as matters of an administrative or technical nature pursuant to Article VII, paragraphs 7 and 8:

- a. Changes to the number of facilities specified in the Protocol for a given monitoring technology; and
- b. Changes to other details for particular facilities as reflected in the Tables of Annex 1 to the Protocol (including, *inter alia*, State responsible for the facility; location; name of facility; type of facility; and attribution of a facility between the primary and auxiliary seismic networks).

If the Executive Council recommends, pursuant to Article VII, paragraph 8 (d) that such changes be adopted, it shall as a rule also recommend pursuant to Article VII, paragraph 8 (g) that such changes enter into force upon notification by the Director-General of their approval.

25. The Director-General, in submitting to the Executive Council and States Parties information and evaluation in accordance with Article VII, paragraph 8 (b), shall include in the case of any proposal made pursuant to paragraph 24:

- a. A technical evaluation of the proposal;
- b. A statement on the administrative and financial impact of the proposal; and
- c. A report on consultations with States directly affected by the proposal, including indication of their agreement.

Temporary Arrangements

26. In cases of significant or irretrievable breakdown of a monitoring facility specified in the Tables of Annex 1 to the Protocol, or in order to cover other temporary reductions of monitoring coverage, the Director-General shall, in consultation and agreement with those States directly affected, and with the approval of the Executive Council, initiate temporary arrangements of no more than one year's duration, renewable if necessary by agreement of the Executive Council and of the States directly affected for another year. Such arrangements shall not cause the number of operational facilities of the International Monitoring System to exceed the number specified for the relevant network; shall meet as far as possible the technical and operational requirements specified in the operational manual for the relevant network; and shall be conducted within the budget of the Organization. The Director-General shall furthermore take steps to rectify the situation and make proposals for its permanent resolution. The Director-General shall notify all States Parties of any decision taken pursuant to this paragraph.

Cooperating National Facilities

27. States Parties may also separately establish cooperative arrangements with the Organization, in order to make available to the International Data Centre supplementary data from national monitoring stations that are not formally part of the International Monitoring System.

28. Such cooperative arrangements may be established as follows:

- a. Upon request by a State Party, and at the expense of that State, the Technical Secretariat shall take the steps required to certify that a given monitoring facility meets the technical and operational requirements specified in the relevant operational manuals for an International Monitoring System facility, and make arrangements for the authentication of its data. Subject to the agreement of the Executive Council, the Technical Secretariat shall then formally designate such a facility as a cooperating national facility. The Technical Secretariat shall take the steps required to revalidate its certification as appropriate;
- b. The Technical Secretariat shall maintain a current list of cooperating national facilities and shall distribute it to all States Parties and;
- c. The International Data Centre shall call upon data from cooperating national facilities, if so requested by a State Party, for the purposes of facilitating consultation and clarification and the consideration of on-site inspection requests, data transmission costs being borne by that State Party.

The conditions under which supplementary data from such facilities are made available, and under which the International Data Centre may request further or expedited reporting, or clarifications, shall be elaborated in the operational manual for the respective monitoring network.

C. CONSULTATION AND CLARIFICATION

29. Without prejudice to the right of any State Party to request an on-site inspection, States Parties should, whenever possible, first make every effort to clarify and resolve, among themselves or with or through the Organization, any matter which may cause concern about possible non-compliance with the basic obligations of this Treaty.

30. A State Party that receives a request pursuant to paragraph 29 directly from another State Party shall provide the clarification to the requesting State Party as soon as possible, but in any case no later than 48 hours after the request. The requesting and requested States Parties may keep the Executive Council and the Director-General informed of the request and the response.

A State Party shall have the right to request the Director-General to assist in clarifying any matter which may cause concern about possible non-compliance with the basic obligations of this Treaty. The Director-General shall provide appropriate information in the possession of the Technical Secretariat relevant to such a concern. The Director-General shall inform the Executive Council of the request and of the information provided in response, if so requested by the requesting State Party.

32. A State Party shall have the right to request the Executive Council to obtain clarification from another State Party on any matter which may cause concern about possible non-compliance with the basic obligations of this Treaty. In such a case, the following shall apply:

- a. The Executive Council shall forward the request for clarification to the requested State Party through the Director-General no later than 24 hours after its receipt;

- c. The Executive Council shall take note of the clarification and forward it to the requesting State Party no later than 24 hours after its receipt;
- d. If the requesting State Party deems the clarification to be inadequate, it shall have the right to request the Executive Council to obtain further clarification from the requested State Party.

The Executive Council shall inform without delay all other States Parties about any request for clarification pursuant to this paragraph as well as any response provided by the requested State Party.

33. If the requesting State Party considers the clarification obtained under paragraph 32 (d) to be unsatisfactory, it shall have the right to request a meeting of the Executive Council in which States Parties involved that are not members of the Executive Council shall be entitled to take part. At such a meeting, the Executive Council shall consider the matter and may recommend any measure in accordance with Article V.

D. ON-SITE INSPECTIONS

Request for an On-Site Inspection

34. Each State Party has the right to request an on-site inspection in accordance with the provisions of this Article and Part II of the Protocol in the territory or in any other place under the jurisdiction or control of any State Party, or in any area beyond the jurisdiction or control of any State.

35. The sole Purpose of an on-site inspection shall be to clarify whether a nuclear weapon test explosion or any other nuclear explosion has been carried out in violation of Article I and, to the extent possible, to gather any facts which might assist in identifying any possible violator.

36. The requesting State Party shall be under the obligation to keep the on-site inspection request within the scope of this Treaty and to provide in the request information in accordance with paragraph 37. The requesting State Party shall refrain from unfounded or abusive inspection requests.

44. The Director-General, before the Executive Council takes a decision on the on-site inspection request, shall transmit immediately to the Executive Council any additional information available from the International Monitoring System or provided by any State Party on the event specified in the request, including any clarification provided pursuant to paragraphs 42 and 43, as well as any other information from within the Technical Secretariat that the Director-General deems relevant or that is requested by the Executive Council.

45. Unless the requesting State Party considers the concern raised in the on-site inspection request to be resolved and withdraws the request, the Executive Council shall take a decision on the request in accordance with paragraph 46.

Executive Council Decisions

46. The Executive Council shall take a decision on the on-site inspection request no later than 96 hours after receipt of the request from the requesting State Party. The decision to approve the on-site inspection shall be made by at least 30 affirmative votes of members of the Executive Council. If the Executive Council does not approve the inspection, preparations shall be stopped and no further action on the request shall be taken.

47. No later than 25 days after the approval of the on-site inspection in accordance with paragraph 46, the inspection team shall transmit to the Executive Council, through the Director-General, a progress inspection report. The continuation of the inspection shall be considered approved unless the Executive Council, no later than 72 hours after receipt of the progress inspection report, decides by a majority of all its members not to continue the inspection. If the Executive Council decides not to continue the inspection, the inspection shall be terminated, and the inspection team shall leave the inspection area and the territory of the inspected State Party as soon as possible in accordance with Part II, paragraphs 109 and 110 of the Protocol.

48. In the course of the on-site inspection, the inspection team may submit to the Executive Council, through the Director-General, a proposal to conduct drilling. The Executive Council shall take a decision on such a proposal no later than 72 hours after receipt of the proposal. The decision to approve drilling shall be made by a majority of all members of the Executive Council.

49. The inspection team may request the Executive Council, through the Director-General, to extend the inspection duration by a maximum of 70 days beyond the 60-day time-frame

specified in Part II, paragraph 4 of the Protocol, if the inspection team considers such an extension essential to enable it to fulfil its mandate. The inspection team shall indicate in its request which of the activities and techniques listed in Part II, paragraph 6 of the Protocol it intends to carry out during the extension period. The Executive Council shall take a decision on the extension request no later than 72 hours after receipt of the request. The decision to approve an extension of the inspection duration shall be made by a majority of all members of the Executive Council.

50. Any time following the approval of the continuation of the on-site inspection in accordance with paragraph 47, the inspection team may submit to the Executive Council, through the Director-General, a recommendation to terminate the inspection. Such a recommendation shall be considered approved unless the Executive Council, no later than 72 hours after receipt of the recommendation, decides by a two-thirds majority of all its members not to approve the termination of the inspection. In case of termination of the inspection, the inspection team shall leave the inspection area and the territory of the inspected State Party as soon as possible in accordance with Part II, paragraphs 109 and 110 of the Protocol.

However, no State Party shall have to accept simultaneous on-site inspections on its territory or at places under its jurisdiction or control.

57. In accordance with the provisions of this Treaty and the Protocol, the inspected State Party shall have:

- a. The right and the obligation to make every reasonable effort to demonstrate its compliance with this Treaty and, to this end, to enable the inspection team to fulfil its mandate;

- b. The right to take measures it deems necessary to protect national security interests and to prevent disclosure of confidential information not related to the purpose of the inspection;

- e. The obligation not to impede the ability of the inspection team to move within the inspection area and to carry out inspection activities in accordance with this Treaty and the Protocol.

Access, in the context of an on-site inspection, means both the physical access of the inspection team and the inspection equipment to, and the conduct of inspection activities within, the inspection area.

58. The on-site inspection shall be conducted in the least intrusive manner possible, consistent with the efficient and timely accomplishment of the inspection mandate, and in accordance with the procedures set forth in the Protocol. Wherever possible, the inspection team shall begin with the least intrusive procedures and then proceed to more intrusive procedures only as it deems necessary to collect sufficient information to clarify the concern about possible non-compliance with this Treaty. The inspectors shall seek only the information and data necessary for the purpose of the inspection and shall seek to minimize interference with normal operations of the inspected State Party.

59. The inspected State Party shall assist the inspection team throughout the on-site inspection and facilitate its task.

60. If the inspected State Party, acting in accordance with Part II, paragraphs 86 to 96 of the Protocol, restricts access within the inspection area, it shall make every reasonable effort in consultations with the inspection team to demonstrate through alternative means its compliance with this Treaty.

The inspected State Party shall have the right to provide the Director-General within 48 hours with its comments and explanations, and to identify any information and data which, in its view, are not related to the purpose of the inspection and should not be circulated outside the Technical Secretariat. The Director-General shall consider the proposals for changes to the draft inspection report made by the inspected State Party and shall wherever possible incorporate them. The Director-General shall also annex the comments and explanations provided by the inspected State Party to the inspection report.

64. The Director-General shall promptly transmit the inspection report to the requesting State Party, the inspected State Party, the Executive Council and to all other States Parties. The Director-General shall further transmit promptly to the Executive Council and to all other States Parties any results of sample analysis in designated laboratories in accordance with Part II, paragraph 104 of the Protocol, relevant data from the International Monitoring System, the assessments of the requesting and inspected States Parties, as well as any other information that the Director-General deems relevant. In the case of the progress inspection report referred to in paragraph 47, the Director-General shall transmit the report to the Executive Council within the time-frame specified in that paragraph.

65. The Executive Council, in accordance with its powers and functions, shall review the inspection report and any material provided pursuant to paragraph 64, and shall address any concerns as to:

- a. Whether any non-compliance with this Treaty has occurred; and
- b. Whether the right to request an on-site inspection has been abused.

66. If the Executive Council reaches the conclusion, in keeping with its powers and functions, that further action may be necessary with regard to paragraph 65, it shall take the appropriate measures in accordance with Article V.

Frivolous or Abusive On-Site Inspection Requests

67. If the Executive Council does not approve the on-site inspection on the basis that the on-site inspection request is frivolous or abusive, or if the inspection is terminated for the same reasons, the Executive Council shall consider and decide on whether to implement appropriate measures to redress the situation, including the following:

- (a) Requiring the requesting State Party to pay for the cost of any preparations made by the Technical Secretariat;
- (b) Suspending the right of the requesting State Party to request an on-site inspection for a period of time, as determined by the Executive Council; and

That Conference shall examine the extent to which the requirement set out in paragraph 1 has been met and shall consider and decide by consensus what measures consistent with international law may be undertaken to accelerate the ratification process in order to facilitate the early entry into force of this Treaty.

3. Unless otherwise decided by the Conference referred to in paragraph 2 or other such conferences, this process shall be repeated at subsequent anniversaries of the opening for signature of this Treaty, until its entry into force.

THE INTERNATIONAL MONITORING SYSTEM AND INTERNATIONAL DATA CENTRE FUNCTIONS

A. GENERAL PROVISIONS

1. The International Monitoring System shall comprise monitoring facilities as set out in Article IV, paragraph 16, and respective means of communication.

2. The monitoring facilities incorporated into the International Monitoring System shall consist of those facilities specified in Annex 1 to this Protocol. The International Monitoring System shall fulfil the technical and operational requirements specified in the relevant operational manuals.

3. The Organization, in accordance with Article II, shall, in cooperation and consultation with the States Parties, with other States, and with international organizations as appropriate, establish and coordinate the operation and maintenance, and any future agreed modification or development of the International Monitoring System.

4. In accordance with appropriate agreements or arrangements and procedures, a State Party or other State hosting or otherwise taking responsibility for International Monitoring System facilities and the Technical Secretariat shall agree and cooperate in establishing, operating, upgrading, financing, and maintaining monitoring facilities, related certified laboratories and respective means of communication within areas under its jurisdiction or control or elsewhere in conformity with international law. Such cooperation shall be in accordance with the security and authentication requirements and technical specifications contained in the relevant operational manuals. Such a State shall give the Technical Secretariat authority to access a monitoring facility for checking equipment and communication links, and shall agree to make the necessary changes in the equipment and the operational procedures to meet agreed requirements. The Technical Secretariat shall provide to such States appropriate technical assistance as is deemed by the Executive Council to be required for the proper functioning of the facility as part of the International Monitoring System.

5. Modalities for such cooperation between the Organization and States Parties or States hosting or otherwise taking responsibility for facilities of the International Monitoring System shall be set out in agreements or arrangements as appropriate in each case.

B. SEISMOLOGICAL MONITORING

6. Each State Party undertakes to cooperate in an international exchange of seismological data to assist in the verification of compliance with this Treaty. This cooperation shall include the establishment and operation of a global network of primary and auxiliary seismological monitoring stations. These stations shall provide data in accordance with agreed procedures to the International Data Centre.

7. The network of primary stations shall consist of the 50 stations specified in Table 1-A of Annex 1 to this Protocol. These stations shall fulfil the technical and operational requirements specified in the Operational Manual for Seismological Monitoring and the International Exchange of Seismological Data. Uninterrupted data from the primary stations

shall be transmitted, directly or through a national data centre, on-line to the International Data Centre

8. To supplement the primary network, an auxiliary network of 120 stations shall provide information, directly or through a national data centre, to the International Data Centre upon request. The auxiliary stations to be used are listed in Table 1-B of Annex 1 to this Protocol. The auxiliary stations shall fulfil the technical and operational requirements specified in the Operational Manual for Seismological Monitoring and the International Exchange of Seismological Data. Data from the auxiliary stations may at any time be requested by the International Data Centre and shall be immediately available through on-line computer connections.

C. RADIONUCLIDE MONITORING

9. Each State Party undertakes to cooperate in an international exchange of data on radionuclides in the atmosphere to assist in the verification of compliance with this Treaty. This cooperation shall include the establishment and operation of a global network of radionuclide monitoring stations and certified laboratories. The network shall provide data in accordance with agreed procedures to the International Data Centre.

10. The network of stations to measure radionuclides in the atmosphere shall comprise an overall network of 80 stations, as specified in Table 2-A of Annex 1 to this Protocol. All stations shall be capable of monitoring for the presence of relevant particulate matter in the atmosphere. Forty of these stations shall also be capable of monitoring for the presence of relevant noble gases upon the entry into force of this Treaty. For this purpose the Conference, at its initial session, shall approve a recommendation by the Preparatory Commission as to which 40 stations from Table 2-A of Annex 1 to this Protocol shall be capable of noble gas monitoring. At its first regular annual session, the Conference shall consider and decide on a plan for implementing noble gas monitoring capability throughout the network. The Director-General shall prepare a report to the Conference on the modalities for such implementation. All monitoring stations shall fulfil the technical and operational requirements specified in the Operational Manual for Radionuclide Monitoring and the International Exchange of Radionuclide Data.

11. The network of radionuclide monitoring stations shall be supported by laboratories, which shall be certified by the Technical Secretariat in accordance with the relevant operational manual for the performance, on contract to the Organization and on a fee-for-service basis, of the analysis of samples from radionuclide monitoring stations. Laboratories specified in Table 2-B of Annex 1 to this Protocol, and appropriately equipped, shall, as required, also be drawn upon by the Technical Secretariat to perform additional analysis of samples from radionuclide monitoring stations. With the agreement of the Executive Council, further laboratories may be certified by the Technical Secretariat to perform the routine analysis of samples from manual monitoring stations where necessary. All certified laboratories shall provide the results of such analysis to the International Data Centre, and in so doing shall fulfil the technical and operational requirements specified in the Operational Manual on Radionuclide Monitoring and the International Exchange of Radionuclide Data.

D. HYDROACOUSTIC MONITORING

12. Each State Party undertakes to cooperate in an international exchange of hydro-acoustic data to assist in the verification of compliance with this Treaty. This cooperation

shall include the establishment and operation of a global network of hydroacoustic monitoring stations. These stations shall provide data in accordance with agreed procedures to the International Data Centre.

13. The network of hydroacoustic stations shall consist of the stations specified in Table 3 of Annex 1 to this Protocol, and shall comprise an overall network of six hydrophone and five T-phase stations. These stations shall fulfil the technical and operational requirements specified in the Operational Manual for Hydroacoustic Monitoring and the International Exchange of Hydroacoustic Data.

E. INFRASOUND MONITORING

14. Each State Party undertakes to cooperate in an international exchange of infrasound data to assist in the verification of compliance with this Treaty. This cooperation shall include the establishment and operation of a global network of infrasound monitoring stations. These stations shall provide data in accordance with agreed procedures to the International Data Centre.

15. The network of infrasound stations shall consist of the stations specified in Table 4 of Annex 1 to this Protocol, and shall comprise an overall network of 60 stations. These stations shall fulfil the technical and operational requirements specified in the Operational Manual for Infrasound Monitoring and the International Exchange of Infrasound Data.

F. INTERNATIONAL DATA CENTRE FUNCTIONS

16. The International Data Centre shall receive, collect, process, analyse, report on and archive data from International Monitoring System facilities, including the results of analysis conducted at certified laboratories.

17. The procedures and standard event screening criteria to be used by the International Data Centre in carrying out its agreed functions, in particular for the production of standard reporting products and for the performance of standard range of services for States Parties, shall be elaborated in the Operational Manual for the International Data Centre and shall be progressively developed. The procedures and criteria developed initially by the Preparatory Commission shall be approved by the Conference at its initial session.

International Data Centre Standard Products

18. The International Data Centre shall apply on a routine basis automatic processing methods and interactive human analysis to raw International Monitoring System data in order to produce and archive standard International Data Centre products on behalf of all States Parties. These products shall be provided at no cost to States Parties and shall be without prejudice to final judgements with regard to the nature of any event, which shall remain the responsibility of States Parties, and shall include:

- a. Integrated lists of all signals detected by the International Monitoring System, as well as standard event lists and bulletins, including the values and associated uncertainties calculated for each event located by the International Data Centre, based on a set of standard parameters;
- b. Standard screened event bulletins that result from the application to each event by the International Data Centre of standard event screening criteria, making use of the characterization parameters specified in Annex 2 to this Protocol, with the objective of characterizing, highlighting in the standard event bulletin, and thereby screening out,

events considered to be consistent with natural phenomena or non-nuclear, man-made phenomena. The standard event bulletin shall indicate numerically for each event the degree to which that event meets or does not meet the event screening criteria. In applying standard event screening, the International Data Centre shall use both global and supplementary screening criteria to take account of regional variations where applicable. The International Data Centre shall progressively enhance its technical capabilities as experience is gained in the operation of the International Monitoring System;

- c. Executive summaries, which summarize the data acquired and archived by the International Data Centre, the products of the International Data Centre, and the performance and operational status of the International Monitoring System and International Data Centre; and
- d. Extracts or subsets of the standard International Data Centre products specified in sub-paragraphs (a) to (c), selected according to the request of an individual State Party.

19. The International Data Centre shall carry out, at no cost to States Parties, special studies to provide in-depth, technical review by expert analysis of data from the International Monitoring System, if requested by the Organization or by a State Party, to improve the estimated values for the standard signal and event parameters.

International Data Centre Services to States Parties

20. The International Data Centre shall provide States Parties with open, equal, timely and convenient access to all International Monitoring System data, raw or processed, all International Data Centre products, and all other International Monitoring System data in the archive of the International Data Centre or, through the International Data Centre, of International Monitoring System facilities. The methods for supporting data access and the provision of data shall include the following services:

- (a) Automatic and regular forwarding to a State Party of the products of the International Data Centre or the selection by the State Party thereof, and, as requested, the selection by the State Party of International Monitoring System data;
- (b) The provision of the data or products generated in response to ad hoc requests by States Parties for the retrieval from the International Data Centre and International Monitoring System facility archives of data and products, including interactive electronic access to the International Data Centre database; and
- (c) Assisting individual States Parties, at their request and at no cost for reasonable efforts, with expert technical analysis of International Monitoring System data and other relevant data provided by the requesting State Party, in order to help the State Party concerned to identify the source of specific events. The output of any such technical analysis shall be considered a product of the requesting State Party, but shall be available to all States Parties.

The International Data Centre services specified in sub-paragraphs (a) and (b) shall be made available at no cost to each State Party. The volumes and formats of data shall be set out in the Operational Manual for the International Data Centre.

National Event Screening

21. The International Data Centre shall, if requested by a State Party, apply to any of its standard products, on a regular and automatic basis, national event screening criteria established by that State Party, and provide the results of such analysis to that State Party.

This service shall be undertaken at no cost to the requesting State Party. The output of such national event screening processes shall be considered a product of the requesting State Party.

Technical Assistance

22. The International Data Centre shall, where required, provide technical assistance to individual States Parties;

- a. In formulating their requirements for selection and screening of data and products;
- b. By installing at the International Data Centre, at no cost to a requesting State Party for reasonable efforts, computer algorithms or software provided by that State Party to compute new signal and event parameters that are not included in the Operational Manual for the International Data Centre, the output being considered products of the requesting State Party; and
- c. By assisting States Parties to develop the capability to receive, process and analyse International Monitoring System data at a national data centre.

23. The International Data Centre shall continuously monitor and report on the operational status of the International Monitoring System facilities, of communications links, and of its own processing systems. It shall provide immediate notification to those responsible should the operational performance of any component fail to meet agreed levels set out in the relevant operational manual.

PART II
ON-SITE INSPECTIONS
A. GENERAL PROVISIONS

1. The procedures in this Part shall be implemented pursuant to the provisions for on-site inspections set out in Article IV.

2. The on-site inspection shall be carried out in the area where the event that triggered the on-site inspection request occurred.

3. The area of an on-site inspection shall be continuous and its size shall not exceed 1,000 square kilometres. There shall be no linear distance greater than 50 kilometres in any direction.

4. The duration of an on-site inspection shall not exceed 60 days from the date of the approval of the on-site inspection request in accordance with Article IV, paragraph 46, but may be extended by a maximum of 70 days in accordance with Article IV, paragraph 49.

5. If the inspection area specified in the inspection mandate extends to the territory or other place under the jurisdiction or control of more than one State Party, the provisions on on-site inspections shall, as appropriate, apply to each of the States Parties to which the inspection area extends.

6. In cases where the inspection area is under the jurisdiction or control of the inspected State Party but is located on the territory of another State Party or where the access from the point of entry to the inspection area requires transit through the territory of a State Party other than the inspected State Party, the inspected State Party shall exercise the rights and fulfil the obligations concerning such inspections in accordance with this Protocol. In such a case, the State Party on whose territory the inspection area is located shall facilitate the inspection and shall provide for the necessary support to enable the inspection team to carry

out its tasks in a timely and effective manner. States Parties through whose territory transit is required to reach the inspection area shall facilitate such transit.

7. In cases where the inspection area is under the jurisdiction or control of the inspected State Party but is located on the territory of a State not Party to this Treaty, the inspected State Party shall take all necessary measures to ensure that the inspection can be carried out in accordance with this Protocol. A State Party that has under its jurisdiction or control one or more areas on the territory of a State not Party to this Treaty shall take all necessary measures to ensure acceptance by the State on whose territory the inspection area is located of inspectors and inspection assistants designated to that State Party. If an inspected State Party is unable to ensure access, it shall demonstrate that it took all necessary measures to ensure access.

8. In cases where the inspection area is located on the territory of a State Party but is under the jurisdiction or control of a State not Party to this Treaty, the State Party shall take all necessary measures required of an inspected State Party and a State Party on whose territory the inspection area is located, without prejudice to the rules and practices of international law, to ensure that the on-site inspection can be carried out in accordance with this Protocol. If the State Party is unable to ensure access to the inspection area, it shall demonstrate that it took all necessary measures to ensure access, without prejudice to the rules and practices of international law.

9. The size of the inspection team shall be kept to the minimum necessary for the proper fulfilment of the inspection mandate. The total number of members of the inspection team present on the territory of the inspected State Party at any given time, except during the conduct of drilling, shall not exceed 40 persons. No national of the requesting State Party or the inspected State Party shall be a member of the inspection team.

10. The Director-General shall determine the size of the inspection team and select its members from the list of inspectors and inspection assistants, taking into account the circumstances of a particular request.

11. The inspected State Party shall provide for or arrange the amenities necessary for the inspection team, such as communication means, interpretation services, transportation, working space, lodging, meals, and medical care.

12. The inspected State Party shall be reimbursed by the Organization, in reasonably short period of time after conclusion of the inspection, for all expenses, including those mentioned in paragraphs 11 and 49, related to the stay and functional activities of the inspection team on the territory of the inspected State Party.

13. Procedures for the implementation of on-site inspections shall be detailed in the Operational Manual for On-Site Inspections.

B. STANDING ARRANGEMENTS

Designation of Inspectors and Inspection Assistants

14. An inspection team may consist of inspectors and inspection assistants. An on-site inspection shall only be carried out by qualified inspectors specially designated for this function. They may be assisted by specially designated inspection assistants, such as technical and administrative personnel, aircrew and interpreters.

15. Inspectors and inspection assistants shall be nominated for designation by the States Parties or, in case of staff of the Technical Secretariat, by the Director-General, on the basis of their expertise and experience relevant to the purpose and functions of on-site inspections.

The nominees shall be approved in advance by the States Parties in accordance with paragraph 18.

16. Each State Party, no later than 30 days after the entry into force of this Treaty for it, shall notify the Director-General of the names, dates of birth, sex, ranks, qualifications and professional experience of the persons proposed by the State Party for designation as inspectors and inspection assistants.

17. No later than 60 days after the entry into force of this Treaty, the Technical Secretariat shall communicate in writing to all States Parties an initial list of the names, nationalities, dates of birth, sex and ranks of the inspectors and inspection assistants proposed for designation by the Director-General and the States Parties, as well as a description of their qualifications and professional experience.

18. Each State Party shall immediately acknowledge receipt of the initial list of inspectors and inspection assistants proposed for designation. Any inspector or inspection assistant included in this list shall be regarded as accepted unless a State Party, no later than 30 days after acknowledgment of receipt of the list, declares its non-acceptance in writing. The State Party may include the reason for the objection. In the case of non-acceptance, the proposed inspector or inspection assistant shall not undertake or participate in on-site inspection activities on the territory or in any other place under the jurisdiction or control of the State Party that has declared its non-acceptance. The Technical Secretariat shall immediately confirm receipt of the notification of objection.

19. Whenever additions or changes to the list of inspectors and inspection assistants are proposed by the Director-General or a State Party, replacement inspectors and inspection assistants shall be designated in the same manner as set forth with respect to the initial list. Each State Party shall promptly notify the Technical Secretariat if an inspector or inspection assistant nominated by it can no longer fulfil the duties of an inspector or inspection assistant.

20. The Technical Secretariat shall keep the list of inspectors and inspection assistants up to date and notify all States Parties of additions or changes to the list.

21. A State Party requesting an on-site inspection may propose that an inspector from the list of inspectors and inspection assistants serve as its observer in accordance with Article IV, paragraph 61.

22. Subject to paragraph 23, a State Party shall have the right at any time to object to an inspector or inspection assistant who has already been accepted. It shall notify the Technical Secretariat of its objection in writing and may include the reason for the objection. Such objection shall come into effect 30 days after receipt of the notification by the Technical Secretariat. The Technical Secretariat shall immediately confirm receipt of the notification of the objection and inform the objecting and nominating States Parties of the date on which the inspector or inspection assistant shall cease to be designated for that State Party.

23. A State Party that has been notified of an inspection shall not seek the removal from the inspection team of any of the inspectors or inspection assistants named in the inspection mandate.

24. The number of inspectors and inspection assistants accepted by a State Party must be sufficient to allow for availability of appropriate numbers of inspectors and inspection assistants. If, in the opinion of the Director-General, the non-acceptance by a State Party of proposed inspectors or inspection assistants impedes the designation of a sufficient number of inspectors and inspection assistants or otherwise hampers the effective fulfilment of the

purposes of an on-site inspection, the Director-General shall refer the issue to the Executive Council.

25. Each inspector included in the list of inspectors and inspection assistants shall receive relevant training. Such training shall be provided by the Technical Secretariat pursuant to the procedures specified in the Operational Manual for On-Site Inspections. The Technical Secretariat shall co-ordinate, in agreement with the States Parties, a schedule of training for the inspectors.

Privileges and Immunities

26. Following acceptance of the initial list of inspectors and inspection assistants as provided for in paragraph 18 or as subsequently altered in accordance with paragraph 19, each State Party shall be obliged to issue, in accordance with its national procedures and upon application by an inspector or inspection assistant, multiple entry/exit and/or transit visas and other relevant documents to enable each inspector and inspection assistant to enter and to remain on the territory of that State Party for the sole purpose of carrying out inspection activities. Each State Party shall issue the necessary visa or travel documents for this purpose no later than 48 hours after receipt of the application or immediately upon arrival of the inspection team at the point of entry on the territory of the State Party. Such documents shall be valid for as long as is necessary to enable the inspector or inspection assistant to remain on the territory of the inspected State Party for the sole purpose of carrying out the inspection activities.

27. To exercise their functions effectively, members of the inspection team shall be accorded privileges and immunities as set forth in sub-paragraphs (a) to (i). Privileges and immunities shall be granted to members of the inspection team for the sake of this Treaty and not for the personal benefit of the individuals themselves. Such privileges and immunities shall be accorded to them for the entire period between arrival on and departure from the territory of the inspected State Party, and thereafter with respect to acts previously performed in the exercise of their official functions.

- (a) The members of the inspection team shall be accorded the inviolability enjoyed by diplomatic agents pursuant to Article 29 of the Vienna Convention on Diplomatic Relations of 18 April 1961;
- (b) The living quarters and office premises occupied by the inspection team carrying out inspection activities pursuant to this Treaty shall be accorded the inviolability and protection accorded to the premises of diplomatic agents pursuant to Article 30, paragraph 1, of the Vienna Convention on Diplomatic Relations;
- (c) The papers and correspondence, including records, of the inspection team shall enjoy the inviolability accorded to all papers and correspondence of diplomatic agents pursuant to Article 30, paragraph 2, of the Vienna Convention on Diplomatic Relations. The inspection team shall have the right to use codes for their communications with the Technical Secretariat;
- (d) Samples and approved equipment carried by members of the inspection team shall be inviolable subject to provisions contained in this Treaty and exempt from all customs duties. Hazardous samples shall be transported in accordance with relevant regulations;
- (e) The members of the inspection team shall be accorded the immunities accorded to diplomatic agents pursuant to Article 31, paragraphs 1, 2 and 3, of the Vienna Convention on Diplomatic Relations;

- (f) The members of the inspection team carrying out prescribed activities pursuant to this Treaty shall be accorded the exemption from dues and taxes accorded to diplomatic agents pursuant to Article 34 of the Vienna Convention on Diplomatic Relations;
- (g) The members of the inspection team shall be permitted to bring into the territory of the inspected State Party, without payment of any customs duties or related charges, articles for personal use, with the exception of articles the import or export of which is prohibited by law or controlled by quarantine regulations;
- (h) The members of the inspection team shall be accorded the same currency and exchange facilities as are accorded to representatives of foreign Governments on temporary official missions; and
- (i) The members of the inspection team shall not engage in any professional or commercial activity for personal profit on the territory of the inspected State Party.

28. When transiting the territory of States Parties other than the inspected State Party, the members of the inspection team shall be accorded the privileges and immunities enjoyed by diplomatic agents pursuant to Article 40, paragraph 1, of the Vienna Convention on Diplomatic Relations. Papers and correspondence, including records, and samples and approved equipment carried by them, shall be accorded the privileges and immunities set forth in paragraph 27 (c) and (d).

29. Without prejudice to their privileges and immunities the members of the inspection team shall be obliged to respect the laws and regulations of the inspected State Party and, to the extent that is consistent with the inspection mandate, shall be obliged not to interfere in the internal affairs of that State. If the inspected State Party considers that there has been an abuse of privileges and immunities specified in this Protocol, consultations shall be held between the State Party and the Director-General to determine whether such an abuse has occurred and, if so determined, to prevent a repetition of such an abuse.

30. The immunity from jurisdiction of members of the inspection team may be waived by the Director-General in those cases when the Director-General is of the opinion that immunity would impede the course of justice and that it can be waived without prejudice to the implementation of the provisions of this Treaty. Waiver must always be express.

31. Observers shall be accorded the same privileges and immunities accorded to members of the inspection team pursuant to this section, except for those accorded pursuant to paragraph 27 (d).

Points of Entry

32. Each State Party shall designate its points of entry and shall supply the required information to the Technical Secretariat no later than 30 days after this Treaty enters into force for it. These points of entry shall be such that the inspection team can reach any inspection area from at least one point of entry within 24 hours. Locations of points of entry shall be provided to all States Parties by the Technical Secretariat. Points of entry may also serve as points of exit.

33. Each State Party may change the points of entry by giving notice of such change to the Technical Secretariat. Changes shall become effective 30 days after the Technical Secretariat receives such notification, to allow appropriate notification to all States Parties.

34. If the Technical Secretariat considers that there are insufficient points of entry for the timely conduct of inspections or that changes to the points of entry proposed by a State Party

would hamper such timely conduct of inspections, it shall enter into consultations with the State Party concerned to resolve the problem.

Arrangements for Use of Non-Scheduled Aircraft

35. Where timely travel to the point of entry is not feasible using scheduled commercial flights, an inspection team may utilize non-scheduled aircraft. No later than 30 days after this Treaty enters into force for it, each State Party shall inform the Technical Secretariat of the standing diplomatic clearance number for non-scheduled aircraft transporting an inspection team and equipment necessary for inspection. Aircraft routings shall be along established international airways that are agreed upon between the State Party and the Technical Secretariat as the basis for such diplomatic clearance.

Approved Inspection Equipment

36. The Conference, at its initial session, shall consider and approve a list of equipment for use during on-site inspections. Each State Party may submit proposals for the inclusion of equipment in the list. Specifications for the use of the equipment, as detailed in the Operational Manual for On-Site Inspections, shall take account of safety and confidentiality considerations where such equipment is likely to be used.

37. The equipment for use during on-site inspections shall consist of core equipment for the inspection activities and techniques specified in paragraph 69 and auxiliary equipment necessary for the effective and timely conduct of on-site inspections.

38. The Technical Secretariat shall ensure that all types of approved equipment are available for on-site inspections when required. When required for an on-site inspection, the Technical Secretariat shall duly certify that the equipment has been calibrated, maintained and protected. To facilitate the checking of the equipment at the point of entry by the inspected State Party, the Technical Secretariat shall provide documentation and attach seals to authenticate the certification.

39. Any permanently held equipment shall be in the custody of the Technical Secretariat. The Technical Secretariat shall be responsible for the maintenance and calibration of such equipment.

40. As appropriate, the Technical Secretariat shall make arrangements with States Parties to provide equipment mentioned in the list. Such States Parties shall be responsible for the maintenance and calibration of such equipment.

The inspected State Party has the right to declare up to 50 square kilometres of restricted-access sites. If more than one restricted-access site is declared, each such site shall be separated from any other such site by a minimum distance of 20 metres. Each restricted-access site shall have clearly defined and accessible boundaries.

93. The size, location, and boundaries of restricted-access sites shall be presented to the head of the inspection team no later than the time that the inspection team seeks access to a location that contains all or part of such a site.

94. The inspection team shall have the right to place equipment and take other steps necessary to conduct its inspection up to the boundary of a restricted-access site.

95. The inspection team shall be permitted to observe visually all open places within the restricted-access site from the boundary of the site.

If at any time the inspection team demonstrates credibly to the inspected State Party that the necessary activities authorized in the mandate could not be carried out from the outside and that access to a restricted-access site is necessary to fulfil the mandate, some members of the inspection team shall be granted access to accomplish specific tasks within the site. The inspected State Party shall have the right to shroud or otherwise protect sensitive equipment, objects and materials not related to the purpose of the inspection. The number of inspectors shall be kept to the minimum necessary to complete the tasks related to the inspection. The modalities for such access shall be subject to negotiation between the inspection team and the inspected State Party.

100. The inspected State Party shall have the right to request that any unused samples or portions thereof be returned.

101. The designated laboratories shall conduct chemical and physical analysis of the samples transferred for off-site analysis. Details of such analysis shall be elaborated in the Operational Manual for On-Site Inspections.

102. The Director-General shall have the primary responsibility for the security, integrity and preservation of samples and for ensuring that the confidentiality of samples transferred

for off-site analysis is protected. The Director-General shall do so in accordance with procedures contained in the Operational Manual for On-Site Inspections. The Director-General shall in any case:

106. The States Parties on whose territory transit or basing points are located shall, as far as possible, assist in facilitating the inspection, including transporting the inspection team, its baggage and equipment to the inspection area, as well as providing the relevant amenities specified in paragraph 11. The Organization shall reimburse assisting States Parties for all costs incurred.

107. Subject to the approval of the Executive Council, the Director-General may negotiate standing arrangements with States Parties to facilitate assistance in the event of an on-site inspection in an area beyond the jurisdiction or control of any State.

108. In cases where one or more States Parties have conducted an investigation of an ambiguous event in an area beyond the jurisdiction or control of any State before a request is made for an on-site inspection in that area, any results of such investigation may be taken into account by the Executive Council in its deliberations pursuant to Article IV.

Post-Inspection Procedures

109. Upon conclusion of the inspection, the inspection team shall meet with the representative of the inspected State Party to review the preliminary findings of the inspection team and to clarify any ambiguities. The inspection team shall provide the representative of the inspected State Party with its preliminary findings in written form according to a standardized format, together with a list of any samples and other material taken from the inspection area pursuant to paragraph 98. The document shall be signed by the head of the inspection team. In order to indicate that he or she has taken notice of the contents of the document, the representative of the inspected State Party shall countersign the document. The meeting shall be completed no later than 24 hours after the conclusion of the inspection.

Departure

110. Upon completion of the Post-inspection procedures, the inspection team and the observer shall leave, as soon as possible, the territory of the inspected State Party. The inspected State Party shall do everything in its power to provide assistance and to ensure the safe conduct of the inspection team, equipment and baggage to the point of exit. Unless agreed otherwise by the inspected State Party and the inspection team, the point of exit used shall be the same as the point of entry.

PART III
CONFIDENCE-BUILDING MEASURES

1. Pursuant to Article IV, paragraph 68, each State Party shall, on a voluntary basis, provide the Technical Secretariat with notification of any chemical explosion using 300 tonnes or greater of TNT-equivalent blasting material detonated as a single explosion anywhere on its territory, or at any place under its jurisdiction or control. If possible, such notification shall be provided in advance. Such notification shall include details on location, time, quantity and type of explosive used, as well as on the configuration and intended purpose of the blast.

2. Each State Party shall, on a voluntary basis, as soon as possible after the entry into force of this Treaty provide to the Technical Secretariat, and at annual intervals thereafter update, information related to its national use of all other chemical explosions greater than 300 tonnes TNT-equivalent. In particular, the State Party shall seek to advise:

- a. The geographic locations of sites where the explosions originate;
- b. The nature of activities producing them and the general profile and frequency of such explosions;
- c. Any other relevant detail, if available; and

to assist the Technical Secretariat in clarifying the origins of any such event detected by the International Monitoring System.

3. A State Party may, on a voluntary and mutually acceptable basis, invite representatives of the Technical Secretariat or of other States Parties to visit sites within its territory referred to in paragraphs 1 and 2.

4. For the purpose of calibrating the International Monitoring System, States Parties may liaise with the Technical Secretariat to carry out chemical calibration explosions or to provide relevant information on chemical explosions planned for other purposes.

ANNEX 2 TO THE PROTOCOL

List of Characterisation Parameters for International Data Centre Standard Event Screening

1. The International Data Centre standard event screening criteria shall be based on the standard event characterisation parameters determined during the combined processing of data from all the monitoring technologies in the International Monitoring System. Standard event screening shall make use of both global and supplementary screening criteria to take account of regional variations where applicable.

2. For events detected by the International Monitoring System seismic component, the following parameters, *inter alia*, may be used:

- location of the event;
- depth of the event;
- ratio of the magnitude of surface waves to body waves;
- signal frequency content;
- spectral ratios of phases;
- spectral scalloping;
- first motion of the P-wave;
- focal mechanism;
- relative excitation of seismic phases;
- comparative measures to other events and groups of events; and
- regional discriminants where applicable.

3. For events detected by the International Monitoring System hydroacoustic component, the following parameters, *inter alia*, may be used:

- signal frequency content including corner frequency, wide-band energy and mean centre frequency and bandwidth;
- frequency-dependent duration of signals;
- spectral ratio; and
- indications of bubble-pulse signals and bubble-pulse delay.

4. For events detected by the International Monitoring System infrasound component, the following parameters, *inter alia*, may be used:

- signal frequency content and dispersion;
- signal duration; and
- peak amplitude.

5. For events detected by the International Monitoring System radionuclide component, the following parameters, *inter alia*, may be used:
